## MISSION

The Maryland Workers' Compensation Commission seeks to secure the equitable and timely administration of the provisions of the Maryland Workers' Compensation law on behalf of its customers, the injured workers and their employers, by providing an efficient forum for the resolution of individual claims.

## VISION

The Workers' Compensation Commission envisions a state wherein injured workers and employers are empowered to create an equitable partnership to facilitate prompt and fair resolution of workers' compensation matters.

## Equal Opportunity Employer

The Workers' Compensation Commission continues to acknowledge and accept its commitment to equal opportunity for all current and prospective employees as well as its clients.

## LETTER FROM THE CHAIRMAN

The adage “may you live in interesting times” has disputed origins, but unquestionably applies to all of us. With the continuing effects of the pandemic presenting daily challenges, I am pleased to submit this 2021 Annual Report of the Maryland Workers’ Compensation Commission. This excellent publication fulfills our legislative mandate in LE 9-312 and covers the fiscal year running from July 1, 2020 through June 30, 2021.

The Commission is committed to excellence and our staff is steadfast in its efforts to perform our responsibilities. Without question, the professionalism and technical acumen of our team is a hallmark of the WCC. Our agency's operation is the foundation of why Maryland’s workers’ compensation system is among the finest in the United States. This remains true even in the face of difficult changes and obstacles. It is appropriate at this juncture to highlight that in the face of adversity, our workers’ compensation community has risen to the occasion.

This comprehensive report is a critical resource for every stakeholder in the workers’ compensation community. It is included on our website to maximize its availability to the public. The data collected and presented gives excellent insight to the facts and trends affecting Maryland workers, employers, and insurers. Amy S. Lackington and her team deserve enormous credit for their work in making this publication possible.

On behalf of the entire Commission, I extend my gratitude to our indispensable partners and leaders in government. Governor Larry Hogan and the General Assembly have been stalwart supporters. I also appreciate the immeasurable help from the Legislative Oversight Committee, the Maryland Workers’ Compensation Educational Association, the Medical Fee Guide Committee, and the Budget Advisory Committee. Collectively, we are able to better serve the entire community.

Sincerely yours,

R. Karl Aumann

## THE COMMISSION AT A GLANCE

The Maryland Workers' Compensation Commission (the "Commission" or "WCC") is an Independent Agency within the Executive Branch of Maryland State Government. *See generally*, Md. Code Ann., Labor and Employment Article ("LE"), §§ 9-101 - 9-1201. Appointed by the Governor with Senate advice and consent, the Commission's ten members serve twelve-year terms. LE § 9-302. The Governor names the chair. LE § 9-303.

Under Administration, work of the WCC is carried out by three departments: Finance, Information Technology, and Operations.

- a. Finance oversees Fiscal Services; Insurance Programs, Compliance and Reporting; Personnel, and Document Processing, and is aided by the Budget Advisory Committee.
- b. Information Technology oversees Software and Database Development, Systems and Networks, Information Security, Datacenters and Technical Customer Support.
- c. Operations oversees Court Reporting, Hearings, Claims Processing, Interpreter Services, Public Service, Appeals and Support Services (Medical Fee Guide Publisher, Vocational Rehabilitation Certification and Registry).
- d. WCC also is aided by the Advisory Committee on the Registration of Rehabilitation Practitioners, and the Medical Fee Guide Revision Committee.

The WCC administers the Workers' Compensation Law and adjudicates claims for compensation arising under the law. *See generally*, Md. Code Ann., Labor and Employment Article ("LE"), §§ 9-301—9-316. Claims are filed and processed by the WCC which hears contested cases throughout the State. Claimants requiring rehabilitation are referred by the Commission to appropriate rehabilitation service providers.

Employers file a First Report of Injury form with the Commission after a qualifying employee injury occurs. If the injured worker files a claim for benefits within the statutory time limits, an Employee Claim file is created. Employee Claims for benefits may also be filed for occupational disease under specialized statutory definitions. Although not directly subject to HIPAA as a covered entity or trading partner, WCC adheres to strict data privacy protections. Access to non-public data and document images is restricted.

The Commission functions similarly to a judicial system in adjudicating the disputed claims of injured workers in Maryland. A case may be set for one or more hearings before a Commissioner. The Commissioner makes decisions based on issues raised and creates Commission orders. Appeals of Commission decisions are sent to one of Maryland's 24 county or municipal circuit courts. The WCC is required to provide certain notifications to parties and, on request, case related documents to the circuit courts.

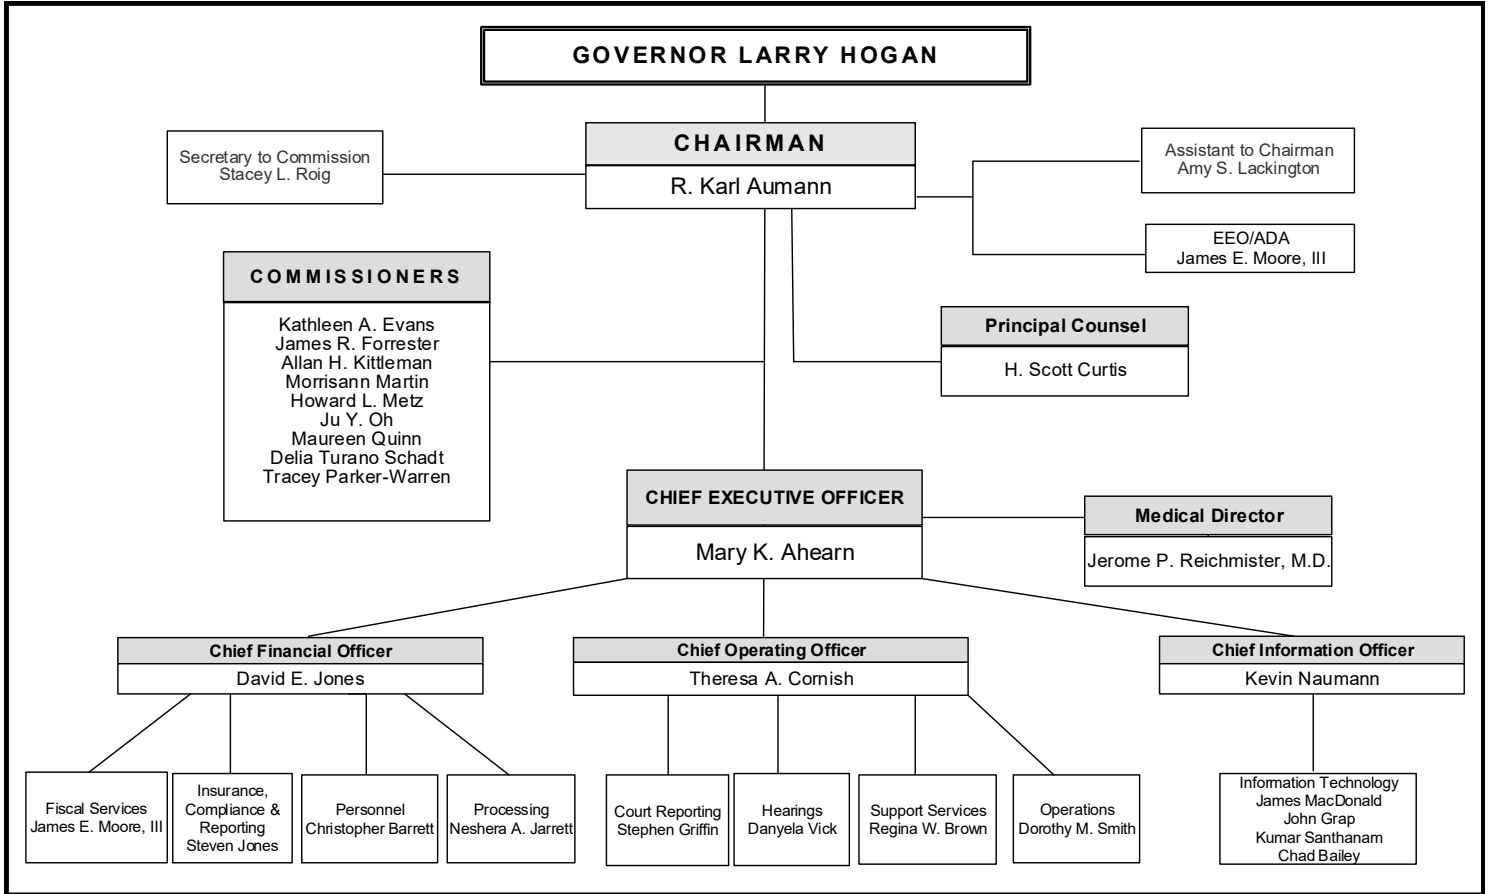

The WCC schedules and conducts hearings at multiple hearing sites strategically located across the State. Hearing sites are located in Abingdon, Baltimore City, Beltsville, Cambridge, Cumberland, Frederick, and LaPlata. Commissioners rotate among the hearing locations. The WCC coordinates and schedules language and hearing interpreters for case hearings. The interpreter service is available upon request by a party in the case at no charge to the parties. Interpreters are sourced from a combination of in-house and outside services.

The Commission also:

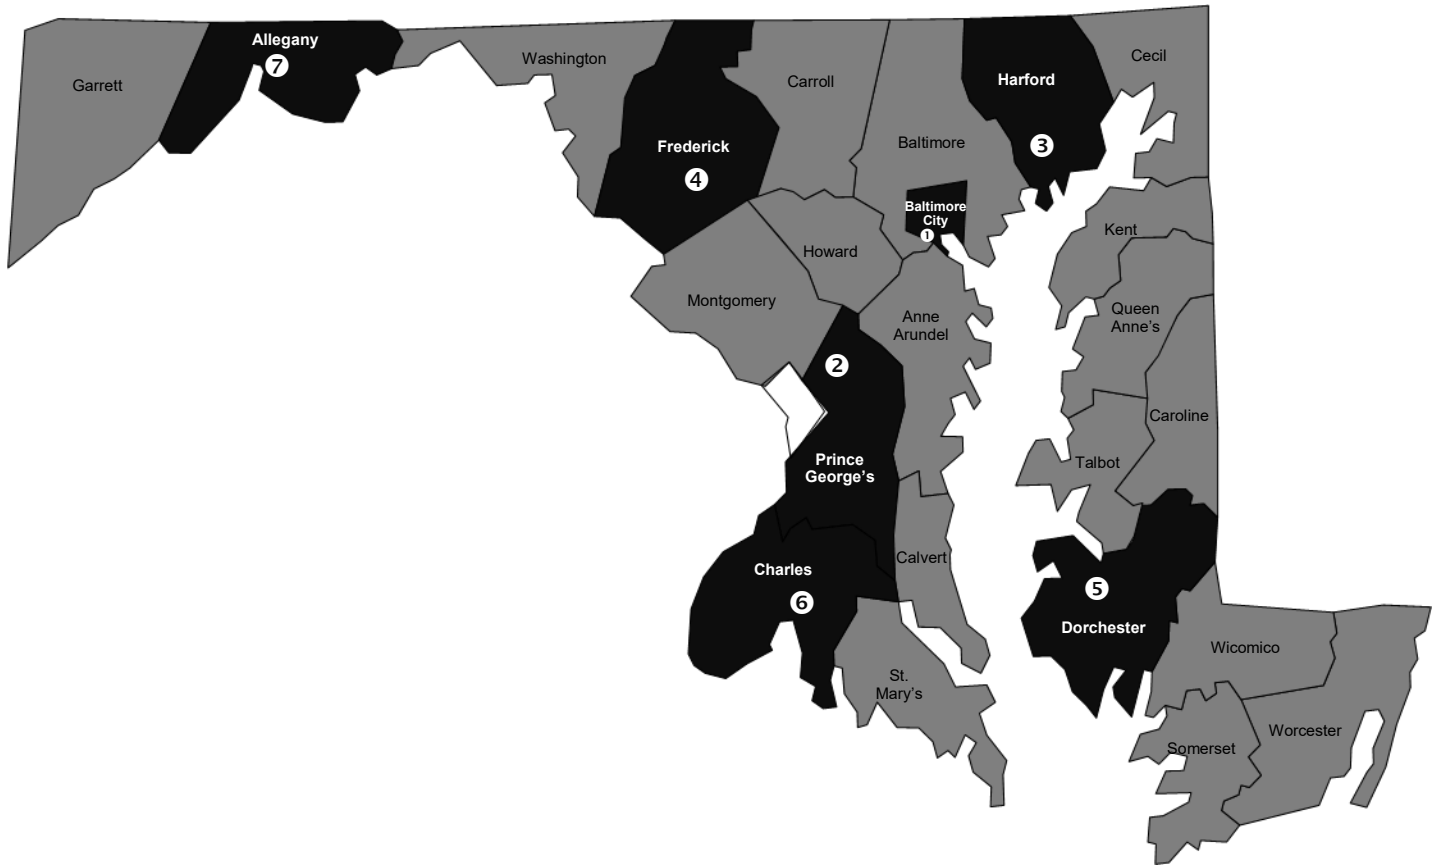

- Tracks and orders employer compliance with workers' compensation insurance requirements.
- Processes attorney registrations for admission to worker's compensation law practice in Maryland.
- Assesses insurers for amounts based on the size of employer payrolls in Maryland for which they have written workers' compensation insurance policies.
- Oversees the self-insurance program and tracks the financial health of self-insured employers and establishes security deposit requirements.
- Registers and certifies vocational rehabilitation practitioners and providers, and tracks their continuing education.
- Updates and publishes an annual medical fee guide and handles medical fee dispute resolution. The Commission maintains internal subject matter expertise and internal consultative services on workplace injury related medical topics.

She is a member of the bars of Maryland, the District of Columbia, and the Supreme Court of the United States.

## AGENCY HIGHLIGHTS AND PROCESS IMPROVEMENTS

### WORKERS' COMPENSATION PROFESSIONAL ASSOCIATIONS

The success of the Maryland Workers' Compensation Commission rests largely on a strong foundation of highly talented and knowledgeable Commissioners and staff. Continuing professional development for both is one of the key elements in the Commission's quest to provide a smooth process and positive outcome in claims adjudication. Each year the Commissioners and staff are actively involved in educational opportunities sponsored by local, national and international workers' compensation professional associations.

### HIGHLIGHTS AND PROCESS IMPROVEMENTS

#### **Commission Response to COVID-19 Pandemic**

In Maryland, we felt a surge of optimism in the spring of 2021 with the rising vaccination rates and Covid-19 cases dropping. Disappointingly, because of the spread of the Delta variant, Covid-19 cases began to climb again. The Commission continues to monitor, plan, prepare, and take steps to mitigate the spread of Covid. Business operations will be modified as necessary to keep our employees and stakeholders safe and still carry on our mission to secure the equitable and timely administration of the provisions of the Workers' Compensation Act. Below are some of the key changes during the 2021 fiscal year.

- ◆ Prior to the June elimination of Level II State of Emergency status, the Commission instituted measures in full compliance with the CDC and Department of Health recommendations that included maintaining safe distances, screening questionnaires, taking of temperatures, and disinfecting hearing rooms between hearings. The wearing of masks in Commission facilities was mandated.
- ◆ Developed and implemented electronic method to capture contact tracing information for all attendees at hearings.
- ◆ Implemented a scheduled hearing process for in-person hearings while maintaining the option for video remote hearings and enhanced the process for the online submission of exhibits.
- ◆ Conducted Commission meetings and all internal business meetings using Microsoft Teams or conference calls until April at which time in-person Commission meetings resumed.
- ◆ Developed an internal Covid-19 Guidance intranet site for Commission employees.
- ◆ Implemented a telework initiative that more than doubled the number of employees who could work remotely and put into place remote management systems to reduce the need for onsite technical support.
- ◆ Developed a Return-to-Work plan for all Commission employees to begin July 2021 that included a vaccination plan and achieved 80% employee vaccination rate prior to return to office.

## AGENCY HIGHLIGHTS AND PROCESS IMPROVEMENTS

### Employer Compliance

- ◆ 93,444 searches were performed using the Coverage Verification mobile app and employer details were provided on 41,881 searches.
- ◆ Show Cause hearings were not scheduled due to the COVID-19 pandemic and therefore there were no penalty orders issued for FY21. The Commission, however, continued to contact employers who appeared to be operating without workers' compensation commission and will schedule Show Cause hearings in FY2022.

### Statistics

- ◆ The Workers' Compensation Commission processed 39,530 statistical coding transactions. Statistical coding transactions capture award information including, but not limited to, class code of employee, industry, cause of injury and body part injured. This information is summarized in the annual report and used for analysis purposes from year to year.

### Production

- ◆ The Commission scanned 610,311 pages into the system in FY21, which is a 62% decrease from the previous fiscal year. The significant decrease is due to the Commission's continuing efforts to modernize its electronic filing system as well as the ongoing effects of the COVID-19 pandemic. In addition, the electronic submission of hearing documents (evidence and exhibits) prior to the hearing eliminated a significant volume of document scanning.
- ◆ The Commission processed 73,378 incoming pieces of mail (approximately 7% more than FY20) and in turn mailed out 527,366 pieces of mail (a decrease of approximately 8% from FY20).

### Appeals

- ◆ The number of appeal cases printed decreased 20% to 138. The decrease is largely attributed to the pandemic with courts not fully operational for the entire year.

### Facilities

- ◆ In June 2021, the Department of General Services completed negotiations to renew the lease for the Commission's principal offices in Baltimore City. The lease renewal is for a ten-year period with a five-year renewal option after the ten-year term. The new lease was renewed at a minimal increase per square

foot over the final year annual rate of the prior negotiated lease in December 2010.

### Docketing

- ◆ During the pandemic, the Commission remained dedicated to adjudicating as many cases as possible while keeping in line with the state mandated "social distancing" guidelines. Hearings were strategically set at specific times and for the first time, video hearings were implemented to decrease the backlog.

### Interpreter Program

- ◆ The Workers' Compensation Commission received 2,164 requests for interpreter services for fiscal year 2021 compared to 2,635 in fiscal year 2020. The Commission provided interpreter services for 29 languages in addition to Spanish. Telephonic interpretive services were used for the first time to accommodate the deployment of video hearings.

### Hearing Division Orders

- ◆ During the fiscal year there were 23,670 Commissioner Orders issued compared to 23,697 in fiscal year 2020. Despite the impact of COVID-19 on the Commission and the community, order production did not experience a substantial decline.

### Settlements at Intake

- ◆ The Commission processed a total of 6,986 settlements at intake for fiscal year 2021 compared to 8,382 in fiscal year 2020. There were 351 settlements rejected at the intake stage resulting in an overall 3% return rate. This return rate is down 4% compared to last fiscal year. The Workers' Compensation Commission continues to work closely with law firms to reduce the errors when submitting settlements for approval.

### Transcripts

- ◆ In fiscal year 2021, there were 2,237 transcripts (including special requests) produced compared to 2,147 in fiscal year 2020. As a result of the collaboration with the Commission's Enterprise Modernization project team, the reporters can upload hearing transcripts electronically to a claim, a more efficient and expedited process. For the fiscal year 2021, there were a total of 1,247 transcripts uploaded electronically.

## AGENCY HIGHLIGHTS AND PROCESS IMPROVEMENTS

### Electronic Claim Forms

- ◆ In fiscal year 2021, over 90% of claims were submitted electronically; an increase of 2% over the previous year. This allows the Commission to process claims more expeditiously. While attorneys are required to use the online filing system, claimants have found it user friendly and are utilizing the electronic claim system as well.

### Claim Related Documents

- ◆ Over 100,000 claim related documents were submitted electronically; while this is a decrease in the total number of documents submitted it was a larger share compared to the prior year.

### Incoming Telephone Calls

- ◆ The Commission received 47,943 automated incoming calls and 9,899 ACD calls and maintained a 94.32% call answer service level (calls answered within 5 seconds).

### Employer Database Cleanup Project

- ◆ In preparation for the Commission's migration to a new processing system, one of the major tasks presented was the cleanup of its employer database. Staff worked diligently to delete duplicate employers, and to correct employer data in the existing system so only clean employer data would migrate to the new system. In fiscal year 2021, a total of 19,902 duplicate employers were deleted from the WCC employer database. The Commission anticipates completing this initiative in August.

### Subpoenas

- ◆ Due to COVID-19 and the state mandated "social distancing" guidelines, the public was not permitted to enter the Commission unless it was to attend a designated hearing. Although access to the building was limited, the Workers' Compensation Commission was still able to continue to respond to the community's needs in a timely manner. During this time, Public Service staff continued to come into the office to process work that was mailed in. Almost 18,100 subpoenas were processed during the fiscal year 2021 compared to 20,448 in the prior year.

### Information Technology

- ◆ Provided technical support to a remote workforce which more than doubled due to COVID-19.
- ◆ Implemented remote management systems to virtually eliminate the need for in-person interactions to provide technical support.
- ◆ Leveraged online video hearings to continue to serve the citizens of Maryland while in-person services were not permitted due to COVID-19.
- ◆ Enhanced DHS child support data exchange utilizing encryption via asymmetric cryptography.
- ◆ Implemented new technologies to submit web-based IC-1 forms which eliminate legacy file size upload and attachment limits.
- ◆ Implemented new interactive business intelligence reports with drill down functionality for data visualization.
- ◆ Enhanced the online submission of exhibits for hearings to accept larger attachments.
- ◆ Enhanced the eNotice system.
- ◆ Modified the docket setting system to support COVID-19 hearings onsite and remote.
- ◆ Continued to enhance the Commission's security posture via a variety of new applications, services, and security controls.
- ◆ Completed migration and registration of legacy WFMS users into the test and future production versions of CompHub.
- ◆ CompHub development of nearly all claims related processes completed.
- ◆ Released production processes for uploading completed hearing transcripts and exhibits for hearings.

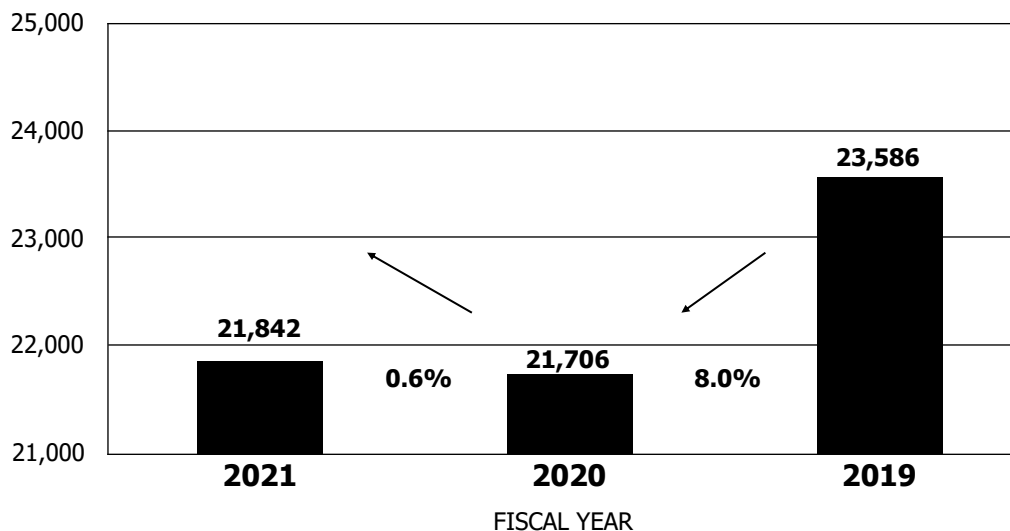

### Report on Fraud Unit

- ◆ Labor and Employment Article, § 9-310.2, Annotated Code of Maryland, requires the Commission to refer to the Insurance Fraud Division of the Maryland Insurance Administration any case in which it is established by a preponderance of the evidence, after a hearing, that a person knowingly affected or knowingly attempted to affect the payment of compensation benefits, fees, or expenses under the Workers' Compensation Act by means of a fraudulent representation. During fiscal year 2021, the Commission continued to review cases for possible referral to the Insurance Fraud Division and referred five (5) files for investigation.

## REVENUES/EXPENDITURES

The Commission collects an assessment from licensed workers' compensation insurers and self-insurers for the operating budget of the Commission as well as the Occupational Safety and Health Program and the Workplace Fraud Act within the Department of Labor, Licensing and Regulation (DLLR). During this fiscal year, \$31,012,070 was assessed and collected with \$13,029,421 being transferred to DLLR for its safety program and workplace fraud initiative. The remaining funds were retained in the Workers' Compensation Fund and were disbursed as Commission operating expenditures as appropriated. The fiscal year 2021

Legislative Appropriation for the Commission's operating expenditures totaled \$19,138,174. Approximately 66 percent of this budget provided for the Commission's allotment of 115.0 full-time equivalent permanent position salaries and 11.25 full-time equivalent contractual position salaries, 9 percent for fixed costs to include lease agreements and lease escalations, 21 percent for contractual services to include computer software and hardware maintenance contracts, 2 percent for communications and postage, and 2 percent for travel expenses, supplies and equipment.

## REGULATORY/LEGAL UPDATE

### Legislation

**HB0085/CH0199**

**SB0651/CH0200**

**Baltimore County—Workers' Compensation—  
Permanent Partial Disability—Detention and  
Correctional Officers**

These Acts provide for enhanced workers' compensation benefits for Baltimore County correctional officers and Baltimore County detention officers for compensable permanent partial disability benefits.

(Effective: 10/1/21)

### Regulatory Updates

**14.09.01 - General Administrative**

**.01, .02, .04, and .09**

**14.09.02 - Requirements for Filing and Amending  
Claims**

**.02**

**14.09.04 - Legal; Representation and Fees**

**.01**

These Regulations were amended to facilitate migration from legacy system WFMS to CompHub by updating WFMS references to CompHub; to simplify the regulation regarding roles for subscribers to CompHub to require that subscribers adhere to the terms of service assigned to their designated roles; to clarify that “papers” filed electronically need not be on physical paper, and to use the term “paper” as that term is used in the Maryland Rules; to permit filing by power of attorney in CompHub and to ensure that the power of attorney form meets statutory requirements; and to bring the regulation concerning terminating the appearance of an attorney into alignment with the practice in civil matters before the District Court of Maryland (see Md. Rule 3-132), while recognizing that claims under the Maryland Workers’ Compensation Law never “close” unless they are settled and there is no possibility of future medical benefits.

(Effective: 8/24/20)

**14.09.17 - Emergency Powers of Chairman of the  
Commission**

**.01—.03**

This new Regulation was adopted for the purpose of granting authority to the Chairman of the Workers’ Compensation Commission to direct and coordinate the Commission’s response in the event of a natural or other event, for which either the Governor has declared a Statewide emergency pursuant to Public Safety Article, Title 14, Annotated Code of Maryland, or a local state of emergency exists that significantly disrupts access to or the operations of one or more Commission hearing locations or other Commission facilities or the ability of the Commission to operate effectively.

(Effective: 7/16/20)

Appellate Opinions

**Tyson Farms, Inc., et al. v. Uninsured Employers' Fund**

471 Md. 386

Court of Appeals held that Court of Special Appeals erred in concluding, as a matter of law, that chicken farm owner and company that provided chickens were co-employers of farm worker at time that he was injured and erred in reversing trial court's judgment. Court of Appeals determined that trial court properly denied motion for judgment, as evidence adduced at trial was susceptible to differing reasonable inferences, including inference that company did not exercise control over worker necessary to be deemed co-employer and thus was not co- employer of worker. Court of Appeals concluded that there was sufficient evidence from which reasonable juror could find—as jury did—that company was not co-employer of worker.

**Montgomery County, Maryland v. Fernando Rios**

244 Md.App. 629

Appellant argued that when a claimant filed a request for modification of his workers' compensation award, alleging permanent partial disability, less than one month before the expiration of the statute of limitation, without first obtaining a medical evaluation for permanent impairment as required by COMAR 14.09.09.02B (he obtained the medical evaluation prior to the hearing but after the statute of limitations had expired), the filing was barred by the statute of limitations. The Commission held that the issue was not time-barred and the Circuit Court affirmed. The CSA also affirmed.

**Board of Education of Harford County, et al. v. Linda A. Sanders**

Court of Special Appeals, Case No. 111

September Term, 2020

Opinion by Berger, J. (March 31, 2021)

Where a party requests that the Workers' Compensation Commission reopen her claim, a refusal to reopen is not subject to judicial review. So long as the Workers' Compensation Commission does not consider the merits of a claimant's argument or rely on new evidence in the issuance of a new or amended order, its previous decision stands unimpeached as of its original date. The trial court erred in denying a party's motion to dismiss a petition for judicial review of the Workers' Compensation Commission decision to summarily deny a party's request to reopen her claim.

**COMMITTEES**

**Maryland General Assembly Workers' Compensation Benefit and Insurance Oversight Committee**

Chapters 590 and 591 of the Acts of 1987 established the Maryland General Assembly Workers' Compensation Benefit and Insurance Oversight Committee. Chapter 5 of the Acts of 2011 expanded the membership to include a representative from a self-insured local government entity. The Oversight Committee was developed to:

- Examine and evaluate the condition of the workers' compensation benefit and insurance structure in Maryland and the impact these laws have on that structure.
- Review, with respect to adequacy and appropriateness, the changes made to the permanent partial benefits laws and make recommendations for necessary changes.
- Report to the Governor and the Legislative Policy Committee on December 31 of each year.
- Monitor, review and comment on salient workers' compensation issues for the Maryland Legislature.

The Oversight Committee membership includes representatives from the legislative, medical, legal, labor, business, insurance, rehabilitation sectors, and self-insured local government, as well as the general public. The Committee is co-chaired by an appointed State Senator and a House of Delegates member.

**Governor's Advisory Committee on Budget of State Workers' Compensation Commission**

Pursuant to the requirements of Labor and Employment Article §§ 9-317 and 9-318, a Budget Advisory Committee was established to review the annual proposed operating budget of the Workers' Compensation Commission and make recommendations to the Commission. The Budget Advisory Committee will perform this review and make its recommendations by November 1 of each year. The Committee submits its annual report and recommendations to the Governor and Legislature by December 1 of each year. A meeting of the Committee was held virtually on October 6, 2020.

**COMMITTEES**

**Advisory Committee on the Registration of Rehabilitation Practitioners**

The Advisory Committee on the Registration of Rehabilitation Practitioners was formed by the workers' compensation commission in 1997. The Committee's role is to review, evaluate and provide recommendations to the Commission regarding a vocational rehabilitation practitioner's application where questions or clarifications are needed. Members are appointed to a three-year term by the Workers' Compensation Commission. The Committee consists of seven members who are certified rehabilitation practitioners (Labor and Employment Article, Section 9-6A-05).

**Medical Fee Guide Revision Committee**

The Medical Fee Guide Revision Committee (MFGRC) was established in response to Labor and Employment Article § 9-663(b)(3). It reviews medical and surgical fees for completeness and reasonableness as well as provides a forum for discussing the fee guide. Recommendations are then made to the full Commission. The MFGRC, whose membership consists of an equal number of payers and receivers of workers' compensation medical benefits, engages in an ongoing analysis of reimbursement rates and recommends modifications to the Commission. In 2008, the Medical Fee Guide was fully incorporated into COMAR and was updated to include an annual adjustment factor that will help reimbursement rates stay current.
